

Boringdon Hall - New Spa and Fitness Facility

Jones Building Group have successfully completed the construction of a new spa and fitness facility including a gym, café, 12 treatment rooms, swimming pool with adjacent hydro pool, salon, spatisserie, showers, changing rooms and relaxation areas.

Project Objective

To produce a contemporary, stylish spa facility with Gym, swimming pool, beauty salon and treatment rooms finished to the highest standards to complement the adjacent luxury hotel.

Description and Approach

The project raised a number of challenges due to the site's location, inclement weather and a complex design. There were also issues due to the exciting hotel building being grade 1 listed and being open to paying guests during the construction period.

Completion & Handover

It was due to finish December 2015 however due to client lead changes and the above points the project was completed July 2016 to an exceptionally high standard.
