

Daisy Chains Nursery - School Extension

Jones Building Group has completed the demolition of an existing single storey garage and excavation of a large area to build a single storey assembly hall and two storey office to form a new play area on one level.

Project Objective

To enable the pupils to access the assembly hall and enlarge the play area on one level for disabled access.

Description and Approach

The project needed to be managed under strict restrictions, with site access to an eye surgery and school building, who share access with Daisy Chains. The job was completed in a live school environment, making sure all of the access is managed closely for safety.

Completion & Handover

Completion of our work enabled the client to fit the school out ready for the new term in September 2015.
